Professional Summary

Computer Science undergraduate with experience building full-stack web applications and backend systems. Skilled in problem solving, API integration, authentication, database management, and software development fundamentals. Passionate about building scalable products and learning complex technical systems.

Education

Bachelor of Technology in Computer Science & Engineering

Charusat University | 2024 – 2028

CGPA: 7.48

Technical Skills

Languages: C++, Java, Python, SQL, JavaScript, HTML, CSS

Technologies/Frameworks: Node.js, Express.js, MongoDB, REST APIs

Tools: Git, GitHub, VS Code, MySQL, MongoDB Compass

Core Concepts: OOP, DSA, DBMS, Web Development

Projects

StockGuru (College Project)

Tech Stack: Node.js, Express.js, MongoDB, JavaScript, Financial APIs

- Built a full-stack stock market analysis platform with live stock data integration and dynamic stock detail views
- Implemented JWT-based authentication and personalized watchlist functionality
- Integrated third-party financial APIs with caching mechanisms to reduce redundant requests and API usage

- Designed responsive dashboard with stock search, trending stocks, and interactive chart visualization

Airlines Booking System (College Project)

Tech Stack: C++

- Developed airline ticket booking system with ticket generation, booking persistence, and cancellation features
- Implemented object-oriented design with file handling for ticket and passenger management

Snake Game (College Project)

Tech Stack: C

- Developed terminal-based snake game using C and standard libraries
- Implemented core game logic, collision detection, and score tracking

Achievements

- 2nd Runner-Up – GhostHunt Chapter 1, CyberKavach Community (2025)

Languages

Hindi, English, Marathi, Gujarati
